

eNetAssess™

Product Guide

Question bank

eNetAssess allows users to manage their question banks effectively through several tools that make creating and managing questions as easy as possible. In addition to the ease of use, there are loads of features such as our Qi tool which is an AI driven question creation feature.

- ▶ Question management.
- ▶ Wide range of question formats.
- ▶ Review question process.
- ▶ Question validation.
- ▶ Revision history.
- ▶ Auto and manually marked.
- ▶ iQ - AI question creation.
- ▶ Import/export questions.
- ▶ xQTI support. Notifications

Centres

Effectively manage your centres in the platform, setting up centre users, assessments the centre is accredited for and running centre specific reports. When setting up schedules, you can assign a centre to determine which centre the schedule is taking place at.

- ▶ Centre management.
- ▶ Assign centre users & roles.
- ▶ Assign centre accreditations.
- ▶ Assign centres to schedules.
- ▶ Run reports on centres. Event management

Assessments

Assessments can be constructed in multiple ways to provide unique delivery for your requirements. Providing access to both online and offline delivery mechanisms. Additionally, you can configure your assessments to control who has access to deliver specific assessments.

- ▶ Assessment management.
- ▶ Frontpage & branding.
- ▶ Assessment availability.
- ▶ Online/offline assessments.
- ▶ Observational assessments.
- ▶ Critical marking options.
- ▶ Setup mock and pilot assessments. Learning pathways

Invigilators & Assessors

When running your assessments, you'll need to setup Invigilators and Assessors on the platform. Once those users are setup, they can be assigned to centres, assessments and directly to specific exam schedules.

- ▶ Setup Invigilators & Assessors.
- ▶ Assign to centres, assessments, or schedules.
- ▶ Invigilators initiate sessions.
- ▶ Assessors can undertake observational assessments.

Markers & Verifiers

Setup and manage your markers and verifiers who can perform a range of post-assessment marking and validation processes. Markers can perform marking on manually marked sessions – such as essays. Whereas Verifiers can be brought in to perform verification of results.

- ▶ Setup Markers & Verifiers.
- ▶ Mark manually marked questions.
- ▶ Mark paper assessments.
- ▶ Ad-hoc verification.
- ▶ Rule based verification.

Centre Administrators

Setup Centre Administrators to manage and control centres. This also allows Centre Administrators to schedule and book schedules for upcoming assessments.

- ▶ Setup Centre Administrators.
- ▶ Assign to centres.
- ▶ Manage centre schedules.
- ▶ Manage centre details.

Exam Interface

The eNetAssess exam interface is built to be quick and easy for candidates to use, combined with the ability to run it in a secure Kiosk mode.

- ▶ Access via secure desktop application – eNetSecure.
- ▶ Online access via URL for manually proctored exams.
- ▶ Responsive interface for extensive device support.

Candidates

Setup your Candidates and assign them to specific centres or allow them to be associated with centres as and when schedules are created. Candidates can login to undertake online assessments and view their results/certificates.

- ▶ Setup Candidates.
- ▶ Assign to schedules.
- ▶ Access online assessments.
- ▶ View of certificates & results.

Schedules

Setup schedules for upcoming assessments.

- ▶ Schedule management.
- ▶ Assign centre, assessments and candidates.
- ▶ Assign invigilators, assessors and markers as required.
- ▶ Set start/date times for the schedule.
- ▶ Online or paper-based delivery.
- ▶ eProctored option.

Certification

Reward your candidates with certificates to confirm completion of a given assessment. This takes away lots of administrative burden with issuing and managing certificates for candidates.

- ▶ Assign certificates to assessments.
- ▶ Award certificates upon successfully passing an assessment.

eProctoring

Utilise eProctoring for remote low stake assessments to provide a secure environment for you to allow candidates to take assessments without needing invigilators to be involved.

- ▶ Reduce invigilator time.
- ▶ Proctor by review.

- ▶ Capture video & image evidence.
- ▶ Coupled with eNetSecure Kiosk.
- ▶ Only review those who pass.

Reporting

Analytics within assessments are critical for ensuring you make informed decisions about making changes to your assessments and question banks and monitoring progress of candidates, centres and other metrics which are important to your business.

- ▶ Standard reports for candidates, questions, centres, assessments and schedules.
- ▶ Custom reports via eNetReports.
